# GENDER PAY GAP REPORT 2023-2024

#### March 2025

Surrey Heath Borough Council Knoll Road, Camberley GU15 3HD human.resources@surreyheath.gov.uk

## Foreword

Surrey Heath Borough Council is committed to being a fair and inclusive employer that actively encourages a diverse range of individuals to join our team.

A way of measuring one dimension of this is to analyse our gender pay gap to understand where we need to continue to improve. The national gender pay gap average for 2024 is 13.1% - Surrey Heath's mean gender pay gap is lower than this at 8.69%, and this year's report indicates a downward trend (which is positive). It is our expectation that 2024/25 gender pay gap will show continued improvement given the higher percentage of females in pay band 9 and above.

However, this report still indicates a gap which requires focus in 2025. At the end of this report, you will find a summary of the steps we are taking to further improve our position on this in the future.

## Introduction

Surrey Heath Borough Council, with more than 250 employees, is required to publish their gender pay gap information. This report details the Council's Gender Pay Gap for the snapshot date of 31<sup>st</sup> March 2024. A breakdown of the relevant data is provided together with analysis of the results and a summary of our focus areas going forward.

There can be confusion regarding the difference between Gender Pay and Equal Pay.

Equal Pay

As set out in the Equality Act 2010, equal pay means that men and women are to be paid the same when doing the same or equivalent work. The job evaluation process helps us to objectively assess roles of equal value across the organisation.

#### Gender Pay Gap

The gender pay gap shows the differences in average pay between men and women and reflects the type of roles carried out across the Council. Gender pay gaps are greater when more senior or more junior roles are filled predominantly by one gender or when a particular profession tends to attract either men or women. Gender pay gaps can therefore be successfully tackled by removing barriers to recruitment in particular roles and/or making roles more attractive to men and women. Whilst we will always recruit on merit, our aim is to be inclusive to enable everyone to have the best possible success.

The gender pay gap only assesses the pay gap based on the protected characteristic of 'sex' as defined by the <u>Equality and Human Rights Commission</u>.

For information, the Council does not have bonus schemes and therefore does not pay bonuses on top of basic pay.

## Gender Pay Gap as of 31<sup>st</sup> March 2024

As at 31<sup>st</sup> March 2024, based on 295 employees, the mean and median figures for Surrey Heath Borough Council are as follows:

- The mean gender pay gap for the Council is 8.69%. (The mean pay gap is the difference between average hourly earnings of men and women).
- The median gender pay gap for the Council is 11.75%. (The median pay gap is the difference between the mid-point in the range of hourly earnings of men and women, when arranged from lowest to highest.)

The percentages above indicate that overall, female employees have a lower average hourly rate of pay than men. Conversely, a negative percentage would indicate that male employees have lower pay than female employees. The current national mean (average) gender pay gap is 13.1% (source: ONS, April 2024).

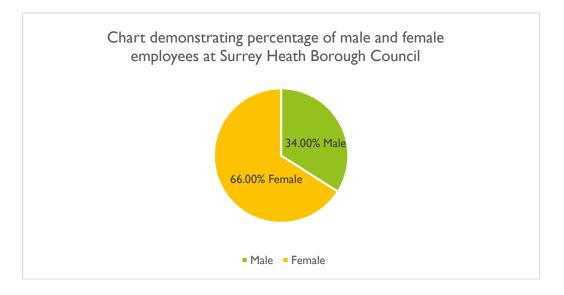

The following tables set out the relevant gender pay gap data for the Council.

## Council workforce by gender

As at 31<sup>st</sup> March 2024, 66% of Surrey Heath Borough Council's staff are female and 34% are male which is demonstrated in the pie chart below:

## Full and part-time gender ratios

Ratios for full time staff at the Council are male (43%) and female (57%). However, of those who work part time, a much greater proportion are female (86.32%) than male (13.68%)

Full-time gender ratio	Part-time gender ratio
1.33 females to 1 male	6.31 females to 1 male

## Average weekly hours worked

On average, male employees at the council work more hours each week than females as shown below:

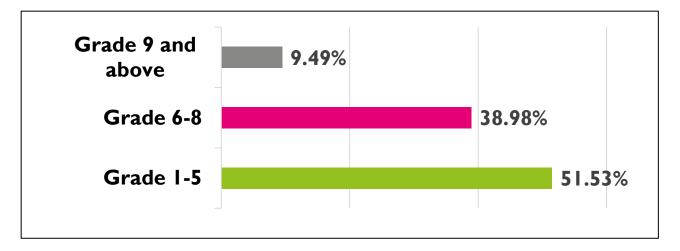

#### Male - 35.41 hours

A visual demonstrating on average how many hours are worked by male and female employees

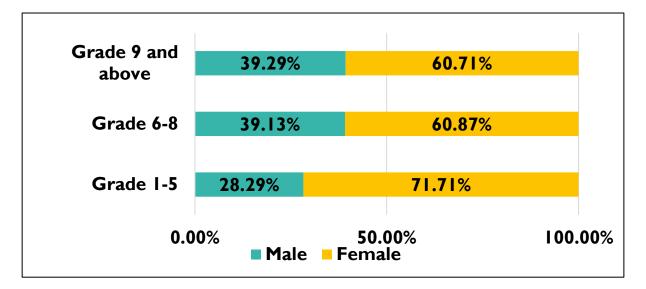

## Workforce by pay grade

Just over half of the Council's employees are in pay grades 1 to 5 (51.53%) and a little over a third are in grades 6 to 8 (38.98%) with the remainder in grades 9 and above (9.49%). These are demonstrated in the graph above.

The graph below shows the split of male and female employees at different pay grades:

## Mean and Median hourly pay rates by gender

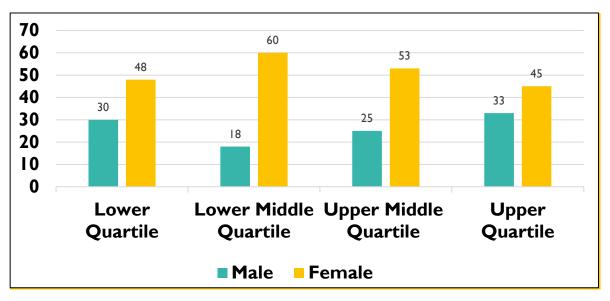

Quartile	Mean hourly rate - male	Mean hourly rate - female	Mean gender pay gap	Median hourly rate – male	Median hourly rate – female	Median gender pay gap
Lower	£13.57	£13.55	0.15%	£13.90	£13.83	0.50%
Lower Middle	£17.19	£17.03	0.93%	£16.88	£16.87	0.06%
Upper Middle	£22.08	£21.06	4.62%	£22.11	£21.08	4.66%
Upper	£32.90	£30.87	6.17%	£28.42	£29.59	-4.12%

## Pay Quartiles by gender

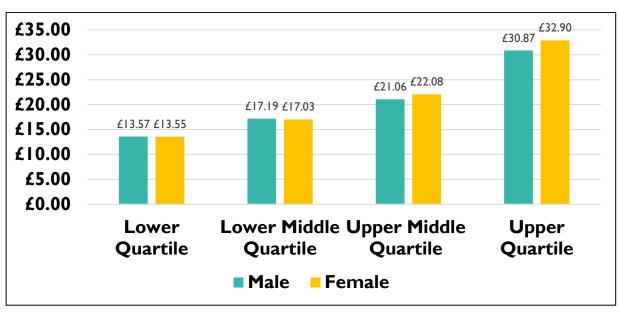

Quartiles	Male	Female	Description
Lower	38.46%	61.54%	Includes all employees whose standard
			hourly rate places them at or below
			the lower quartile
Lower Middle	23.08%	76.92%	Includes all employees whose standard
			hourly rate places them above the
			lower quartile but at or below the
			mean
Upper Middle	32.05%	67.95%	Includes all employees whose standard
			hourly rate places them above the
			mean but at or below the upper
			quartile
Upper	42.31%	57.69%	Includes all employees whose standard
			hourly rate places them above the
			upper quartile

### Summary

Surrey Heath Borough Council is committed to the principle of equal opportunities and equal treatment for all our employees. We have clear pay policies and processes which supports the fair treatment of all our employees irrespective of gender and any other protected characteristics.

At this snapshot time 66% of Surrey Heath Borough Council's staff are female. In the Upper Pay Quartile 57.69% are female.

For the Lower Pay Quartile there is a mean gender pay gap of 0.15%, which indicates that female employees have a lower average hourly rate of pay than males however the pay gap is marginal.

The mean gender pay gap figures for the Lower Middle, Upper Middle and Upper Pay Quartiles are 0.93%, 4.62% and 6.17% respectively, which indicates that female employees have a lower average hourly rate of pay than males.

Although we recognise our gender pay gap is smaller than the national average, Surrey Heath Borough Council is committed to improving its position. Our People Strategy and Achieving Equities Strategy include specific actions to promote inclusivity for all, for example following last year's Gender Pay Gap Report we have:

- Implemented a Carers Policy to ensure that we support carers in employment and give employees of all genders the flexibility they need to fulfil any caring responsibilities.
- Updated our Family Friendly Policies and Agile Working Policy to widen our pool of potential candidates and further increase our appeal to anyone wishing to apply for our roles.

We will continue to:

Publish this Gender Pay Gap Report to share findings and insights openly

- Communicate our Pay Policy Statement internally which includes information about how pay decisions are made to ensure transparency and consistency
- Maintain our pay, job evaluation and grading system that shows transparency of process.
- Promote and deliver learning and development opportunities for all including management development, distance learning, e-learning and on the job training, ensuring all staff can access these opportunities.
- Promote our Apprenticeship and graduate opportunities.
- Continue advertising our roles with pay details included.
