## Domestic Homicide Review – Case 1

This summary outlines the findings from a Domestic Homicide Review, following an incident in August 2011. The identity of those involved has been withheld for the purposes of confidentiality.

The Review concluded with a series of recommendations which focused specifically on mental health services. All recommendations in the report related to Solent NHS Trust.

In summary, the recommendations related to ensuring that Solent NHS Trust provides a diagnosis to its patients; that patient individual care plans are monitored to ensure they are being adhered to; that Solent NHS Trust develop a risk policy as one was not in place at the time of the incident; and, that better case management procedures were put in place.

It is the responsibility of the Surrey Heath Community Safety Partnership to ensure that the Solent NHS Trust delivers all of the recommendation, which it did through periodic contact with and written confirmation from, the Portsmouth Clinical Commissioning Group.
